# TopBrewer

The Premium Coffee Experience

Sustainable. Touchless. Design-led.

TopBrewer combines a hyper-personalised, human-centric and meaningful experience with great coffee and the latest in connected & touchless technology.

Give your guests, employees and clients a premium, personalised and unique coffee experience they won't forget.

TopBrewer's digitally driven, future-proof design makes it a smart and environmentally conscious choice. We source our coffee beans with ethical and sustainable awareness.

TopBrewer
Specifying Guide

It only takes 5 simple steps to specify your TopBrewer solution.

TopBrewer delivers coffee, hot chocolate, and sparkling water—all from a single installation.

Start by selecting the TopBrewer model that fits your daily user needs and coffee preferences.

Explore all available finishes for your TopBrewer on page 14.

Pre-Installation

Prepare the site for installation

With the Pre-Installation Guide, you will find all the info needed to prepare for the installation of Scanomat's TopBrewer.

Find the space requirements, measurements and cut-outs for the cabinets or custom design. The electric and plumbing requirements must be ready before the Scanomat technician can install the TopBrewer on-site.

Any questions about the installation requirements please get in touch with our team.

Get the Pre-installation Guides on
